DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/6/2006 has been entered.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record US Patent 6,125,122 to Favichia et al et al teaches two nodes being able to communicate by establishing a selection of a communication protocol between the two first and second nodes. In one embodiment a network node receiving the indication of a communication protocol from one of the network nodes and selects a designated protocol from a plurality of communication protocols for allowing communication between the first and second nodes. Upon further consideration, applicant's arguments are persuasive. Favichia does not disclose at least two core networks of a plurality of core networks communicating separate ciphering parameters to an access network. In the Examiner's opinion it would have not been obvious to one of ordinary skill in the art to modify the method or the architecture of Favichia to use an access network for receiving ciphering parameters from at least the first and the second core networks of a plurality of core networks to select and use the at least one of said received

Art Unit: 2136

ciphering parameters. The prior arts of record, fail to teach singly or in combination “communicate separate ciphering parameters to said access network from at least two of said core networks” as recited in claim 1, nor “receiving at an access network or receiving by a device separate ciphering parameters from at least two of a plurality of core networks” as recited in claims 4, 8 and 9. Consequently claims 1, 4, 8 and 9 are allowable over the prior arts of record. Claims 2, 3, 20-21; claims 5-7, 22-23; and claims 10-14 are directly or indirectly dependent upon claims 1, 4, and 9 respectively and therefore are also allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carl Colin whose telephone number is 571-272-3862. The examiner can normally be reached on Monday through Thursday, 8:00-6:30 PM.
